FORMING SUSTAINABLE SOLUTIONS

# SUSTAINABLE **BAKEWARE**

## FEATURES & BENEFITS:

- **DUAL OVENABLE** – conventional and microwave oven up to 400 degrees Fahrenheit for up to 1 hour (can be hotter and/or longer depending on application).
- **ELIMINATES METAL** or foil to ensure operational and product safety and minimize liability.
- **IMPROVES METAL DETECTION** efficiency and reduces the cost of false readings.
- **ENVIRONMENTALLY FRIENDLY** – made with recyclable and renewable materials.
- **EXCELLENT 'MEMORY'**– reduces cost of product damage.
- **EXCELLENT PRODUCT RELEASE** – often eliminates cost of applying a separate release coating.
- **NO ASSEMBLY REQUIRED** – trays nest easily to eliminate set-up labor.
- **QUICK-TOUCH HANDLING** immediately after baking.
- **CUSTOM APPLICATIONS** – flexible material and functional coating options, plus custom colors and printing available.
